

# **The Tawagit of Algeria and the continuous failure in the war against Islam**

Alhamdulillah who said: (And Allah turned back the unbelievers in their rage; they did not obtain any advantage, and Allah sufficed the believers in fighting; and Allah is Strong, Mighty) 25 Surah Al-Ahzab, that was with grace and mercy of Allah this time in the brave city of Bouïra, east of the capital, when the big criminals of the pagan defense ministry agreed on a plan and brought six mortars and began a daily shelling but they did not obtain any advantage and only reaped

torn apart corpses and amputated legs, that are to be added to long list of handicapped that is estimated according to the official statistics more than 65000 handicapped, with all what this figure represents from financial weight on the Bouteflika government and moral weight on the Algerian army which is exhausted from the long war, so the commander of the combing couldn't find a solution to cover up his failure except to resort to dirty war means that are internationally banned according to them by using one of the supporters after compromising and threats, they sent with him a weird hallucinogenic poison that affected some of the brothers and set for the next day an intense shelling by the mortars and Shilkas, which indeed occurred and the criminals expected that the brothers will be affected by poison tucked into the vegetables and fruits brought by the supporter who colluded pressure and coercion, and they would be arrested due to that hallucination, and the (unique) commander will be able to arrest the mujahidin alive and the enemy of Allah will be culminated by the biggest counter-terrorism operation, but Allah failed them and the brothers came out from the trap safely despite that they were slightly affected by that poison but they recovered for that sickness Alhamdulillah.

This operation shows the ethical degradation which the Algerian army the guard of the thieves have reached, since despite of the vast difference between it and the mujahidin in number and equipment, the (unique) commander found that the only solution is using poison and treachery to capture the mujahidin, and the continuous intensive shelling for two months in day and night to cover up their defeat.

After that the sector commander in Bouïra was deposed by the defense ministry because he failed to resist the terrorists – according to them - in the Bouïra region, and the defeated forces returned to its bases licking its wounds, and the outcome of this combing the elite forces fell in six land mines and three others were killed in a direct engagement with the mujahidin, also an IED was detonated against a group of them, and we don't know its outcome but sacking the sector commander indicates that there has been a massacre in their leadership which they concealed as usual... the mujahidin came out Alhamdulillah safely from that cunning except for a slight poisoning cases that were controlled before it exacerbated with the grace of Allah then with the vigilance of the medics who expect such cases recurring by the hands of the criminal intelligence in Blida and Ben Aknoun.

This operation in its size and outcome, clearly shows the state of despair which the ministry of criminality which is called the Algerian defense ministry has reached, which made it resort to treachery and poisons, despite of its huge arsenal and unbelievable budget, it also indicated the complicity of foreign countries and on top of them France and America in this operation because this poison isn't produced in the primitive underdeveloped laboratories of Algeria, and this is no longer a secret in the country after 50 years of false independence that it is still under the French occupation, also this operation showed the protection of Allah Almighty to His weak believing slaves, and maybe Allah Almighty will send for the Karamat of the jihad of this frontline a pen that will record it for the generations and adds it to bright pages of Islam in these lands that embrace glory despite of the disease and the enemies.

(and Allah is the master of His affair, but most people do not know)

Wa Alhamdulillah Rabbi Alalameen
